Getting Vaccinated

Conditions surrounding COVID-19 have been ever-changing and getting vaccinated has now become the most recent change.

At one point, we were working with Napa County to get vaccines completed while Solano County had not yet come up with a plan to vaccinate early childhood providers. The latest information is that everyone who has not been vaccinated needs to use the new portal called My Turn to get on the list to be vaccinated.

Please use this link to register for your vaccination if you have not already done so. Once you register, you will get a fax or email, based on your preference that confirms you are registered. This site works for both counties so please sign up as soon as possible. The site does ask if you are in education or childcare so please make sure to indicate that when you complete your registration.

I am disappointed that we weren't able to get this completed already but we are resilient, and we'll get it done!

Celebrating the 1965 Civil Rights Act and Head Start Impacts.

During the month of February, we honor Black History across the country, and acknowledge how Head Start played a role to help fight discrimination and segregation in the Deep South.

For decades, African-Americans faced hostility in education and disparity in funding between white and black schools. It was the federal Economic Opportunity Act of 1964 that promoted anti-poverty programs, ultimately paving the way for Head Start to begin its work of preparing low-income children for school.

In the mid-1960s, Head Start Programs in Mississippi helped inspire new political movements that gave light to the racial struggles occurring throughout the civil-rights movement. Without their work, bravery and advocacy, we would not be the premier program that we are today – one that is highly recognized and respected across American institutions and party lines.

As we celebrate Black History month, Child Start joins other Head Start organizations across the country in recognizing and acknowledging the important contributions that many African-Americans have made, and continue to make, in the fight for equitable opportunities for everyone.

Last week's trivia Question answer:

Who created the teaching of young children in a children's garden type of style, also known as Kindergarten?

If your answer was Friedrich Froebel You are right!!

The word **kindergarten** comes from the German language. **Kinder** means **children and** garden means **garden**.
The term dates back to the 19th century. Friedrich Froebel (1782-1852) **started** the first **kindergarten, Garden of Children**, in 1840.
