Parent, Family, and Community Engagement (PFCE) Framework

The Head Start Parent, Family, and Community Engagement (PFCE) Framework is a road map for progress. It can be used in program-wide strategic planning, program design and management, continuous learning and improvement activities, as well as with governing bodies and parent groups. The Framework is also useful as a professional development tool. It can help all staff members understand their role in systemic, integrated, and comprehensive PFCE, and to coordinate their efforts with others.

Consider using the PFCE Framework to enhance and coordinate program services. Use it to inform community partners about Head Start and Early Head Start parent and family engagement goals and the importance of those goals to children's school readiness and success in school and life.
